DETAILED ACTION

Response to Amendment

By amendment filed 4/28/2006, the drawings, specification, and claims 1, 6, and 12 are amended. Claim 2 is cancelled and claims 13-15 are added. Claims 1 and 3-15 are pending.

Drawings

The drawings were received on 4/28/2006 and are acceptable.

Allowable Subject Matter

Claims 1 and 3-15 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 12, there is not taught or disclosed in the prior art a semiconductor laser oscillating between 760 and 800 nm and having first and second guide layers in the locations and made of the materials as claimed.

Fukunaga (US 6,195,373) includes all of these layers, but as noted in applicant's response the addition of the limitation that the second guide layer must be formed of AlGaAs and contact the p-type cladding and quantum well distinguishes over Fukunaga. Fukunaga includes multiple upper waveguide layers, therefore the AlGaAs guide layer cannot contact both the p-type cladding and the quantum well active layer.

Independent claims 6 and 14 include subject matter indicated as allowable in the prior action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
